* **Note: ID/Pw policy for Mobile App**

Family members need to use a single principal's ID/Pw. Booking is available only with the principal ID like now, and for security reasons, a policy of one device per login will be implemented. Therefore, if a family member logs in with the principal ID for booking from a different phone/tablet, the previous logged-in session will be automatically logged out. However, for family members like 01 and 02, if they participate in a tournament at least once a year, they can create an ID and subsequently apply for tournament participation themselves.
